REFERRAL PACK

Your Partners in patient care

Dear Colleague,

Thank you for taking the time to read this referral pack.

Please find attached standard referral letters for the management of complex cases.

We welcome referrals for implants in the aesthetic zone, particularly those involving hard or soft tissue grafting. We also welcome other fixed or removable prosthodontic cases where aesthetics may be of importance.

The initial consultation will be on a private basis and free of charge. Your patient will receive a full written quote for any proposed treatment, and we will keep you informed at all relevant stages of treatment.

Once we have received your letter we will contact the patient directly and arrange a prompt appointment.

We are very grateful for any patients that you choose to refer, and will ensure that they return to you on completion of treatment.

Thank you for your referrals.

Best wishes.

Shah Khan

BDS (Edin.) M.CLIN.DENT. (Lond.)

Clinical Director - Sharif Khan BDS (Edin) M.CLIN.DENT. (Lond)

Sharif Khan qualified from Edinburgh University in 1992. He studied Restorative and Advanced Restorative Dentistry at St. Ann's Centre for Postgraduate Dental Studies in Manchester, and trained in both the surgical and prosthodontic aspects of Implantology at the Eastman Dental Institute in London.

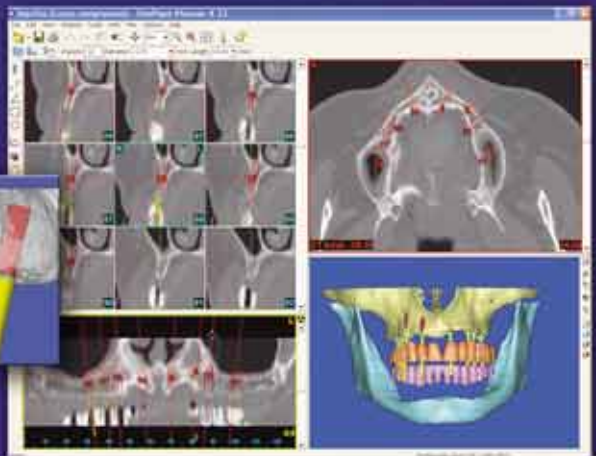

In 2003 he was awarded the Master of Clinical Dentistry degree by Guy's, King's & St. Thomas' Dental Institute of the University of London. The title of his Masters dissertation was "The Creation of Optimum Aesthetics with Implant Supported Restorations".

Sharif is also Course Director of the Success in Practice Seminars, and runs short courses in advanced restorative dentistry at the offices of the General Dental Council and British Dental Association in London.
